are the Nationalists; the "Liberalizers" and the "De-Stalinizers" are simon-pure instruments of Jewry. We might be slightly tempted to admire the Stalinists for the fight they are making against the Jews. It is well to remember, though, that nobody in Russia is in any way friendly toward the United States. The United States is hated in Russia because we are becoming the center of world Jewish power. This is quite likely to be the cause of war between the United States and Russia.

On the whole, I think that Russia has a good chance to escape the clutches of the Jews. I wish that WE had a similar chance. The sad fact is that our position in the world is getting worse every day. The U.S.A. is not a Christian Capitalist nation. It is a Jew-dominated Trotskyite Marxist nation. On a National scale, we are headed for moral and intellectual bankruptcy, not to mention financial bankruptcy. The Jews have never before had such a playground as this. Let them enjoy it while they can, for if they remain in control of it, it will not last long. It is here, in the U.S.A., that the Jew has given the ultimate demonstration of his utter worthlessness as a cultural, moral, political, and intellectual leader. The Jew is simply pulling our house down upon both us and himself.

The Jewish intellectuals of the Trotskyite Marxist stripe can indeed draw a wonderful picture of Utopia. This is merely the voice of the Jewish peddler trying to unload a shoddy piece of cloth upon an unsuspecting peasant. "Utopia" does not exist in the world of reality, where events actually transpire. It is the mask of "Nation-murder," the device by which patriotism is destroyed, the sense of race and nationality wiped out. The power dreams of the Jews have no real substance; they rest upon a firm foundation of thin air. The Jewish power system, when it is put to the acid test, will collapse like a pin-pricked toy balloon. The Jew simply has no fitness for the exercise of political power. Today's Jews live under the protection of order and morality generated by other people, and they have no ability whatsoever to generate order or public morality themselves. They are their own worst enemy. They are like the boiled lobsters in the old New England story: A Midwest woman, visiting in Maine, saw her Down East cousin throwing live lobsters into boiling water. She protested that this was cruel. The Down-East woman grunted, "Aw, they're used to it!" The Jews apparently do not mind anarchy; they're used to it. The worst Anti-Semite is the Jew himself. He is the madman who runs into your house, locks both himself and you inside, and sets the house on fire. Then he delivers a brilliant lecture on the joys of burning to death, and congratulates himself on being "intellectually superior" to you.

The Jew Marxist is not really a superior technician of power. He is merely like a pyromaniac in a munitions factory. Our Anti-Communists have failed to tell the true story of Jew-Communism in Russia. We have heard of the bloody purges, but it is seldom told just exactly who got murdered or purged, or why. At the time of the October Revolution, the Jews "proletarianized" Russia by murdering nearly all Russians who were regarded as being "intelligentsia." In turn, some Russians, who were not exactly "intelligentsia" but nevertheless smart enough to see what was going on, turned on the Jews and put them into a gilded cage and made them work for Russia. This was a rough and dramatic business, undertaken with consummate ruthlessness. It is one of the most interesting stories in history. I, for one, would like to know who was the guiding brain (Old Henry Ford?) behind the Anti-Jewish reaction which threw old Leon Trotsky out of Russia. It has taken several generations in Russia to replace the native intelligentsia who were murdered by the Jews in 1917. Children grow slowly, and they then have to be sent to a University to be educated. The Jews, having wiped out the entire educated class of native Russians, planned to take the Universities for them-

selves, and not to allow many Russians into them. Again, this plan was thwarted because somebody (Again, old Henry Ford?) saw through it and blew the whistle on it.

In the U.S.A., our native intelligentsia have not been shot in basements. They might about as well have been, though. The Jewish stranglehold on American intellectual life is in fact more effective than it was in Russia after the 1917 Revolution. Since World War II, we have had "an amazing Renaissance of Jewish Writers" in America. What this really means is that Uncle Abie, who owns the junkyard, has also bought control of the publishing house. He has driven the goyim out of the literary racket, and has installed all of the most utterly dreary and mediocre Jewish hacks he can find. The Jew, presiding over this collection of sniveling hacks, thinks himself "powerful." He knows nothing of the meaning of real power. "Jewish Supremacy" in American intellectual life is merely another form of "Burning the house down," of sabotage of the means of

"CHRISTMAS WITHOUT CHRIST"

Reported Action by New York Board of Education Elicits Strong Protest.

BITTER CRITICISM OF ATTITUDE OF JEWS

Ministers Discuss Matter in Pulpits, Talk of Legal Action and Public Meetings—Letters to the Papers.

There is something like a crisis in the public school situation in New York city. The reported action of the Board of Education in issuing orders that no hymns or carols shall be sung in the public schools in which the name of Christ or Christmas appears, this at the request of orthodox Hebrews, has elicited a tremendous protest. Many Protestant ministers have discussed the matter in their pulpits, using strong language; ministerial associations have passed resolutions on the subject, one body characterizing the board's action as "an utter misapprehension of the rule against sectarian education, and as utterly out of harmony with the underlying principles of a Christian nation;" committees have been appointed looking to practical action in the line of injunction proceeding—there is talk of mass meetings.

cultural communication which give purpose and meaning to Society. The Jew is not a builder; he is wholly a destroyer of everything, including himself.

Many of our Anti-Communists are missing the target entirely. They talk of "Marxist economic theories" and "State Socialism." These things do not exist. Nothing about Communism is of any consequence except what the Jews have made of it. The basis of Marxism is racial, not economic. The Jews might do well to remember the words of the old Scottish (Gentile) poet: "The best laid plans of mice and men gang oft agly. . . ." Their plan in Russia went badly wrong. They moved in to make Russia their home, and installed old Leon Trotsky as their agent. Pretty soon, Trotsky was dead, and the Moscow papers were singing the praises of an American gentile, one especially repulsive to Jews at that, old Henry Ford, who in the late 1920's was the most popular man in Russia. Meanwhile, Russia quietly mourned her murdered sons, the old Intelligentsia, and sent sassy Jews to Siberia when they balked at working under the point of Stalin's gun. The relation between Stalin and his captive Jewish intellectual slaves is one of the great stories of history, and it is a pity that our American press is too prostituted or too stupid to tell it truthfully. We should try to understand the magnitude of the disaster which strikes a nation when its entire educated class is wiped out. We have been told that the "Communists" in Russia murdered people for opposing Communism. This is NOT the truth. The fact is that Jews murdered Russian intellectuals, and it made no difference if the individual Russian intellectual accepted Communism; he would be murdered anyway, because he belonged to the wrong race. It was not the object of the Jewish purge merely to suppress dissent. They

St. Luke's and St. Vincent's and Mount Sinai Hospitals. The Constitution bears the strain of helping to support private hospitals, why not schools, too?

Letter From an Angry Hebrew.

Canon William Sheafe Chase, the pastor of Christ Episcopal Church in Williamsburg, whose denunciation of the Board of Education has already been quoted, received a letter signed "Israel Rosenstein, secretary of the Brownsville Ethical Club, of Brooklyn." The letter said:

Don't let your bigotry run away with you. The Jew demands his rights, and the Jew has only made a beginning. This is a free country, and Christians have tried to make it a Christian country. We have now abolished your silly Santa Claus and your idiotic Christmas tree business. Next we will get after your libraries and compel you to throw out that vile Shakespeare, who wrote the "Merchant of Venice," with its implied insult on the Jews. You will have to throw out that Walter Scott novel of "Ivanhoe," where the Jew is held up to scorn as a money lender.

Judaism now insists on her rights because Judaism is the real religion. Do you think Judaism has been dormant? Look at your lawyers, your judges, your teachers. Who owns the banks? Who controls the industries? Who are the tradespeople? If the Christians get in a huff and try to undo the action of the Board of Education, the allied Jewish forces can precipitate a fearful financial panic, the outcome of which will be that we will get more than we are at present demanding. In New York city the Jew must be considered.

Keep your Christian hands off the schools. If newspapers uphold you we will withdraw our advertising. Jewish merchants will discharge Christian employees. Mortgages held by Jews on Christian properties will be foreclosed. Let them beware.

Great Calamity, Says Canadian Justice.

A press cablegram from St. John, N. B., date of November 26, says:

In opening Circuit Court to-day Justice Hanington referred to reports that no reference was to be made hereafter to Christ and Christmas in the New York public schools. His Honor said:

"This wiping out from the minds and hearts of children of all reference to Christ is fearful to contemplate. To think of it, in New York no child shall hear the name of Christ, especially at the approach of Christmas. It is a great calamity to think that the country shall be educated as if there was
